

## Supplementary Materials: Misspelling Identification Task

Anonymous  
Anonymous

The task was administered using a double-sided sheet. Tables 1 and 2 show the content of each side of the sheet.

To arrive at a final score, the following formula was used, which was adapted from the LexTale scoring procedure.

$$Score = \frac{1}{2} \left( \frac{100 \times \# \text{ correctly identified words}}{50} + \frac{100 \times \# \text{ correctly identified nonwords}}{164} \right)$$
