

Supplementary data

Figure legend

Fig. S1. Representative images of fetuses from each group. Red circle: hind limb problem; Blue rectangle: dead fetus.

Fig. S2. Change in uric acid, kidney weight in pregnant rats. Serum uric acid (A), kidney weight (B) of pregnant rats in each group. C: Control group, L-H: L-NAME high dose group, L-L: L-NAME low dose group, L-L + Cof: L-NAME low dose + Coffee group. Results are shown as mean \pm SD. Control group: n = 8, L-NAME high dose group: n = 11, L-NAME low dose group: n = 7, L-NAME low dose + Coffee group: n = 8. * P < 0.05; ** P < 0.01 compared to control group.
