

Supplementary Figure 1 Genetic relationships (Neighbour-joining tree) among new sequences (3' COI region, LeafminerCOI-F /R) from the present study (grey shaded boxes,) and previously published COI haplotypes (data from: Scheffer & Lewis, 2005; Scheffer *et al.*, 2006; Wang *et al.*, 2008; Yang *et al.*, 2011) from specimens of the *L. sativae*-W group (*sensu* Scheffer & Lewis, 2005). Enlarged section of the tree (right hand side) highlights samples from the present study, with collection locations and years labelled; Haplotype names follow Scheffer & Lewis (2005).
