

**Supplementary Figure 3.** Network of possible protein-protein interactions in non-diapausing (S2ND and S4ND), diapausing (S2D) and post-diapausing (S4PD) eggs of *Mahanarva spectabilis*. The interaction maps were generated by STRING 10.0 software. The codes in each node represent the proteins deposited in the STRING database.

# S4ND

Supplementary Figure 3. Continued.

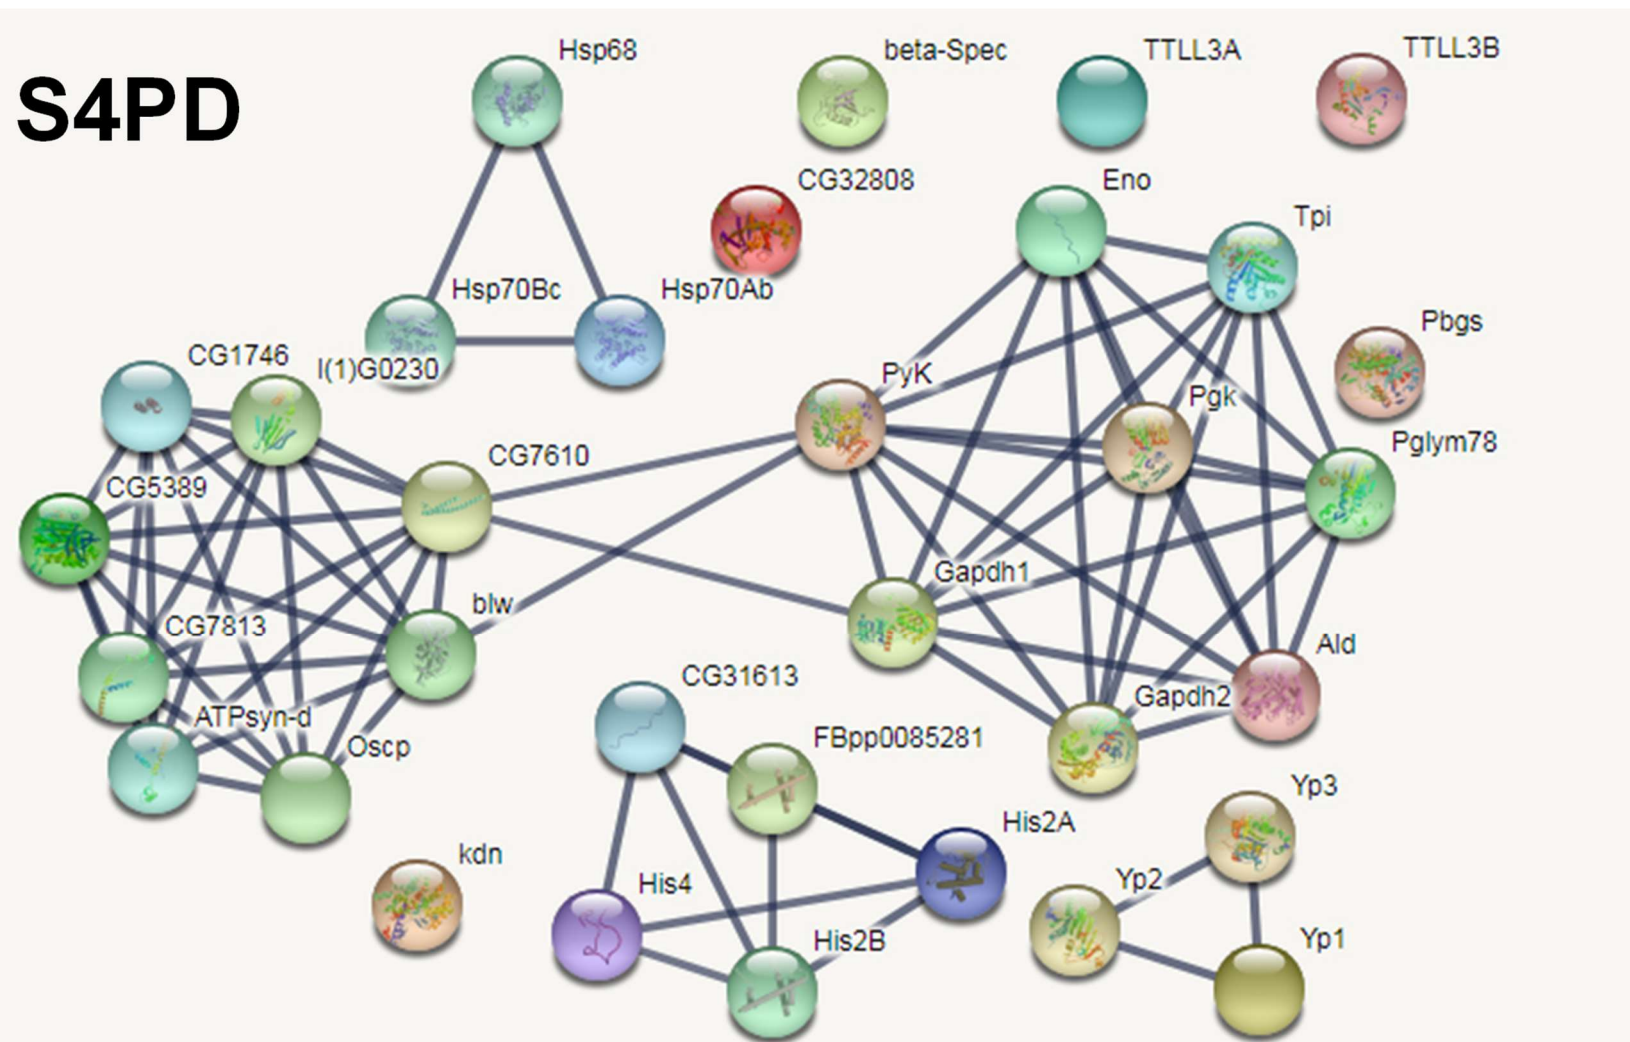

# S2D

Supplementary Figure 3. Continued.

# S4PD

Supplementary Figure 3. Continued.
