Fig.S1 Multiple alignment of buffalo SCAP with other homologues. Notes. The completely conserved residues across all species are shaded in black. Black arrow represents the sterol-sensing domain. Blue arrow represents the 7WD40 motif. Green arrow represents the WD40 domain.

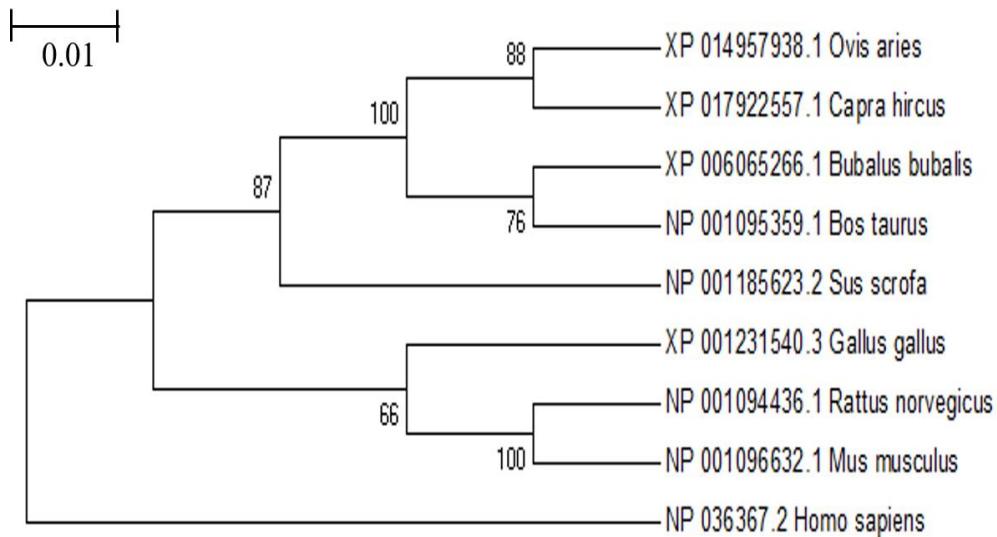

Fig.S2 Phylogenetic tree of *SCAP* family members was constructed with the neighbor-joining method. Node values represent percent bootstrap confidence derived from 1000 replicates.
