DAVID W. MACDONALD

SUPPLEMENTARY TABLE 1 Lion populations in Africa identified in a 2005 workshop and in a 2018 reassessment (see text for details), whether armed conflict had affected the population, whether data were available for both time periods (matching pair) and the main threats identified. This is a comma separated values file available in the Supplementary materials section at doi.org/10.1017/S0030605320000253.
