a Year of the collection of the material (the cores or the alive shell reported in Jones and Gagnon (1994)

b Pre-bomb shell collected alive in 1931 (Jones and Gagnon, 1994). The atmospheric age is inferred from Intcal13 (Reimer et al., 2013) using ResAge software (Soulet, 2015; Soulet et al., 2016).
