

## APPENDIX S5: HALBERDS USED FOR THE TYPE-SERIES IN FIGURES 22 & 23

All objects except 23a–c have been studied by the author. In the drawings the halberds have been ‘made good’ – minor losses due to damage and corrosion have been restored to improve the clarity of morphological definition.

Current catalogue numbers (Appendices S2 and S3) are given in square brackets

### *Fig. 22: Irish type-series*

- a) Near Clonard, Co Meath [1]; Harbison 1969b, no. 280
- b) No provenance [11]; Harbison 1969b, no. 286
