

From materials research to climate change: David Eaglesham assesses the solar energy industry

Interviewed by **Steve M. Yalisove**
and **Arthur L. Robinson**

FEATURE VIDEO

What are the most significant materials opportunities to improve efficiency while reducing costs?

MRS Bulletin's Steve M. Yalisove, chair of the Energy Quarterly section, catches up with David Eaglesham at a corner brewery in Ypsilanti, Mich. to talk about the solar energy industry: (Click on the links below to watch the videos.)
