

Supplemental Table 1. Means of the response variables: plant density as percent of the nontreated control (PD_{pct}), biomass per plant as percentage of nontreated control (BP_{pct}) and total plant biomass as percentage of untreated control (TPB_{pct}) for the 277 entries of the snap bean diversity panel in field trials near Urbana, IL in 2019 and 2020. Different letters within a column indicate significantly different means.

Cultivar	Year
