

Supplemental Figure 1. Crude rates of surgical site infections (SSI) according to the time from the initiation of surveillance to the date of the operation, by surgical procedure.

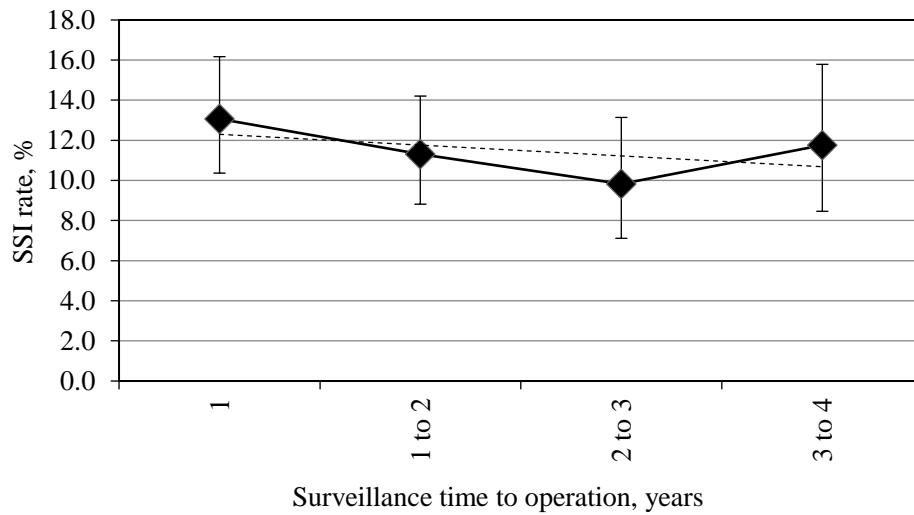

Gastric bypass (N=3,077)

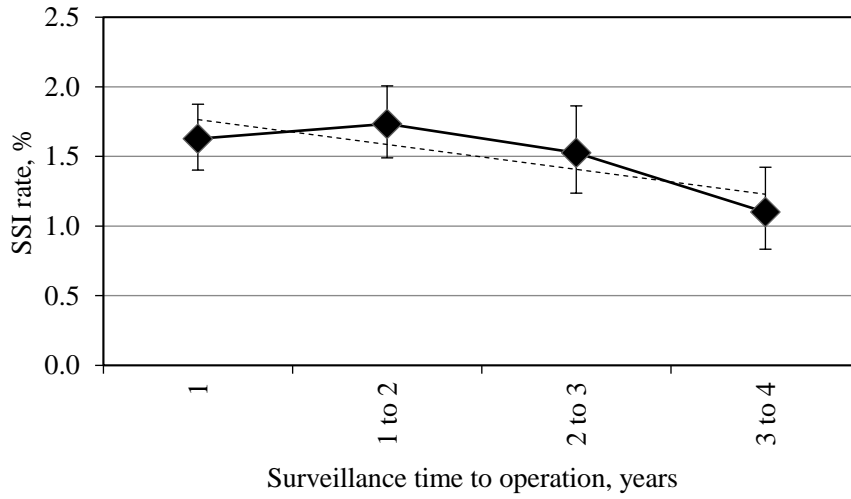

Colon surgery (N=22,889)

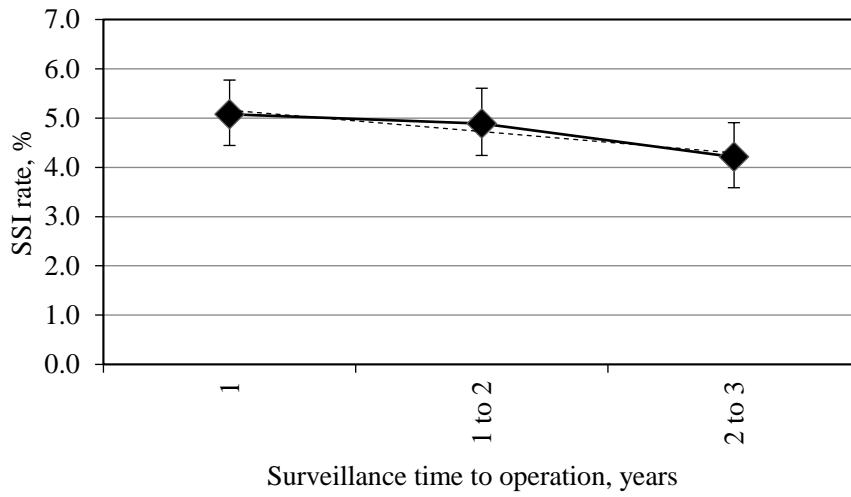

Rectum surgery (N=1,835)

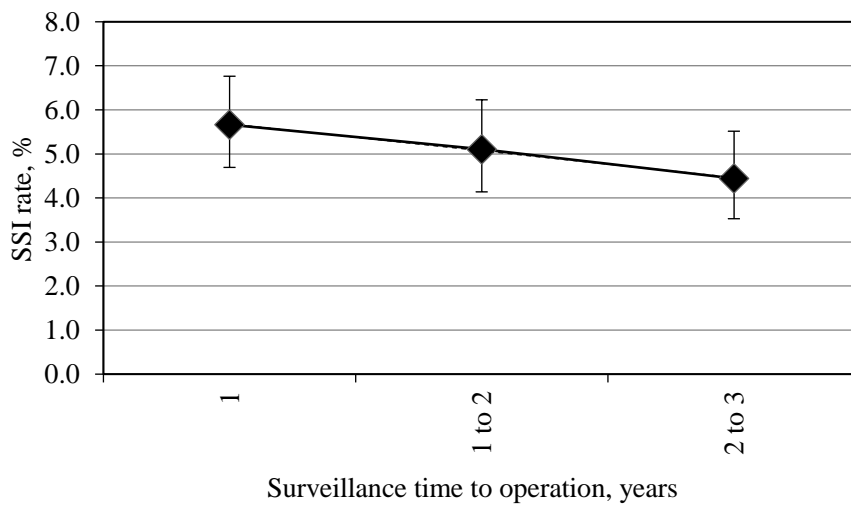

C-section (N=32,814)

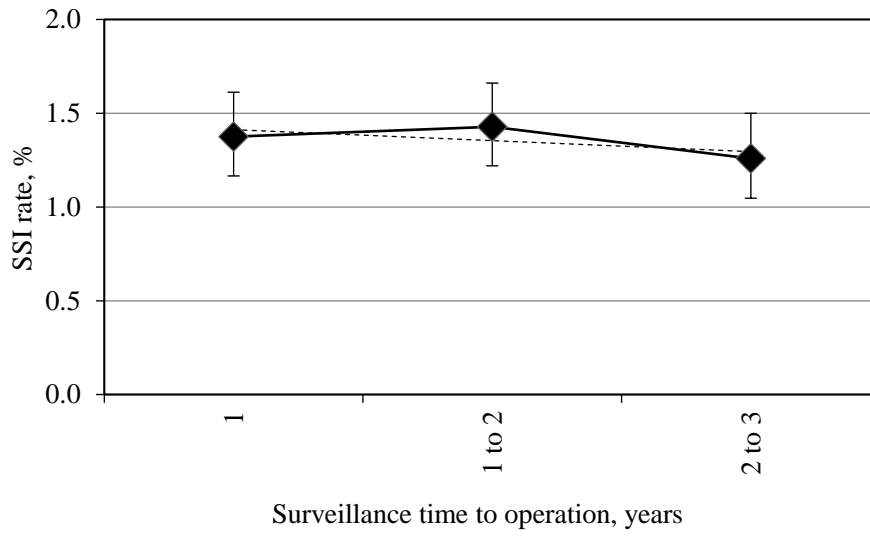

Cardiac surgery, overall (N=11,974)

Coronary artery bypass graft (N=5,541)

Hip arthroplasty (N=32,102)

Knee arthroplasty (N=20,625)
