

*Intervocalic lenition is not
phonological: evidence from
Campidanese Sardinian*

Jonah Katz
West Virginia University

Supplementary materials

Data for all consonants examined in the paper are available at <https://doi.org/10.1017/S095267572100035X>.

There are three text files:

- `katz.data_description.txt` contains a guide to the variables in the data file `katz.final_data.txt`.
- `katz.final_data.txt` contains all the data used in the paper and in the simulation code `katz.intensity_simulation.R.txt`.
- `katz.intensity_simulation.R.txt` contains code for producing the duration and intensity simulations in the paper, as well as some of the plots.
